

Appendix IV

Objectives of seeking professional support in stock taking for our school:

Before planning ahead, it is necessary to have a full picture of the present situation of our school to achieve the following :

- To gain a better understanding of the school in all aspects
- To mobilize the whole-school community to prepare for the upcoming challenges
- To identify the strengths of the school
- To set measurable indicators for changes

The stock-taking will involve interviews with administrators, teachers, students, parents and non-teaching staff about the present situation of our school. The aspects covered will include curriculum, teaching and learning strategies, assessment and evaluation methods, etc..
